2021 Annual Michael Sutton International Student Paper Competition

Dear Prof. Emri,

The Society for Experimental Mechanics would like to encourage you to motivate your students to participate in the Michael Sutton International Student Paper Competition.

If you have a full time student working on a project, thesis or dissertation study that is ready for presentation, I sincerely encourage you to have them submit an entry to the MSISPC. You will find that these competitions are a very rewarding experience for students as well as beneficial to further developing their technical communication skills and long-term career goals.

All participating students in the MSISPC will receive a complimentary registration to the conference and a free one-year student membership to SEM.

If you have any questions concerning the MSISPC, please do not hesitate to contact SEM at shari@sem.org.

Thank you for your time and we hope to welcome your students' participation.

Jon Rogers
SEM Past President and
Chairman of the Michael Sutton International Student Paper Competition Committee

About us

The Society for Experimental Mechanics is composed of international members from academia, government, and industry who are committed to interdisciplinary application, research and development, education, and active promotion of experimental methods to: (a) increase the knowledge of physical phenomena; (b) further the understanding of the behavior of materials, structures and systems; and (c) provide the necessary physical basis and verification for analytical and computational approaches to the development of engineering solutions.
